

Mental Health Program

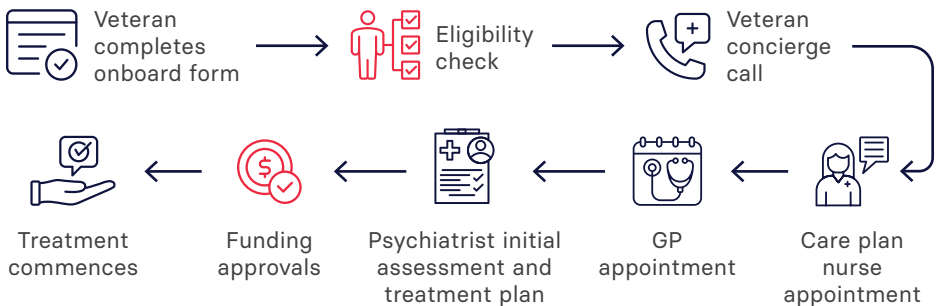

TOTAL
VETERAN
HEALTHCARE

Total Veteran Healthcare understands that service can have a multifaceted impact on mental health, and requires a multidisciplinary healthcare solution.

Our coordinated approach supports treatment for service-related mental health issues, and those arising from the complexities of navigating **civilian life, stress, anxiety, and depression, while building overall resilience.**

Mental Health Program

TOTAL
VETERAN
HEALTHCARE

Supported by more traditional treatment solutions, Total Veteran Healthcare provides **innovative mental health treatment options in a scalable and coordinated approach including:**

- » Psychiatry
- » Transcranial Magnetic Stimulation (TMS)
- » Esketamine
- » Clinical trials - Psilocybin-Assisted Psychotherapy
- » Psychology including EMDR
- » Inpatient treatment
- » Day Programs
- » Diagnostic reporting

Total Veteran Healthcare also partners with **Sana Health Group** to facilitate funding and admission to our portfolio of six leading inpatient residences for **acute mental health, addiction, and eating disorder treatment programs.**

To ensure comprehensive care, our tailored Mental Health programs may include a managed process that goes through **inpatient, outpatient, in-clinic, and in-home settings.**
