

Coordinated Veteran Care Plans (CVC)

Face-to-face GP consults at TVH Clinics around Australia

Providing the highest level of healthcare services to Veterans, Total Veteran Healthcare are specialists in Coordinated Veterans' Care Plans (CVC).

A CVC is a **comprehensive plan that is tailored to meet the unique healthcare needs of Veterans.**

It is designed to provide proactive care coordination for Veteran Gold Card holders with **chronic health conditions**, and Veteran White Card holders with **chronic DVA accepted mental health conditions**.

Health conditions that may be coordinated through a CVC include:

- » **Mental health** conditions such as **depression, anxiety, and post-traumatic stress disorder (PTSD).**
- » **Musculoskeletal** conditions such as **arthritis, back pain, and joint pain.**
- » **Chronic diseases** such as **diabetes, heart disease, and chronic obstructive pulmonary disease (COPD).**
- » **Neurological** conditions such as **Parkinson's disease, multiple sclerosis, and stroke.**
- » **Cancer and other life-limiting illnesses.**

Supportive & Veteran-Centric

Completing a CVC through Total Veteran Healthcare provides you with access to our extensive clinical and non-clinical network, with more than 20 services available. Your coordinated care will be delivered with ease of access and speed of access through our high-quality clinical team and facilities.

While Veterans are a unique group, not every Veteran is the same, and your CVC plan should be developed to meet your unique and individual service history, medical history, and medical requirements, with appropriate escalation pathways. Total Veteran Healthcare creates bespoke treatment plans designed to meet the unique health requirements of each patient.
